

OUR SERVICES

The ReStore is a nonprofit home improvement store that directly supports Habitat for Humanity Northeast Michigan efforts. Our ReStore is open to the public, so anyone can shop from our inventory of new and gently used goods, at a fraction of the retail price.

Community Support - The ReStore serves as a community support system. Sales from donated materials are used to help more families in our service area. Along with, helping the environment by repurposing gently used goods, we are helping to keep waste out of local landfills, promoting savings by keeping money in our customers pocket and spreading kindness through local communities by encouraging charity and volunteer work.

Donations - By donating your household goods, you are helping families acquire the furnishings, appliances and other materials that create a suitable home. Nearly any building or remodeling material that's in good shape can be recycled. Check with us to see what items we are in need of. Pick-up and delivery of items are always an option. Please contact a ReStore Representative at (989) 354-2141 if you need to schedule a donation pick-up. We appreciate your donations.

Shop - Shop the ReStore for your next home improvement project! You can find a variety of quality goods at a fraction of the retail price. Plus, all proceeds help local families. Ask about our daily discounts for Veterans and weekly discounts for Seniors!

Volunteer - Volunteering with the ReStore is a simple way you can support Habitat for Humanity NEMI. Volunteers may be needed for prepping items, stocking shelves, assisting customers, loading trucks, picking up donated materials and more. If you are interested in volunteering, please stop by or check out our website: www.habitatnemi.org.
